NEW HOMEPAGE & MORE LINKS ABOUT THE SHACK

Dear friends,

We have uploaded the much liked [Spiritual Research Network homepage/banner design](#).

We have also added more new links on our [THE SHACK](#) page.

The article links on this page are from pastors, researchers, Christian apologists and free lance writers. There is ample evidence in these well written articles/reviews that there are many very serious problems book. We have invested time researching and helping expose the deception in this book because many people are making decisions about it based on human emotions, rather than Biblical truth. Yes it is fiction, but it presents a false Gospel !

Just recently, William P. Young, the author of [The Shack](#), made some **very problematic theological statements** that undermine the Substitutionary work of Jesus Christ on the cross. The is clearly a matter that all Christians ought to be concerned about.

Our friends at [Lighthouse Trails](#) sent a [PRESS RELEASE](#) about this earlier in the week. We have added it to our [SRN Shack Archive](#) with many other articles (and messages) about the problems with *The Shack*. I have also placed a small note at the bottom of the page about the repercussions that a ministry like our faces in light of exposing error in the Church. We continue to express our love toward God and people, regardless of the difficulties encountered.

Lastly, I thank [many of our colleagues out there](#) as well as the pastors who continue to speak the truth in love for the cause of Christ.

For the love of Christ and the glory of His Name,

Chris Lawson, SRN
